

# SK Abrasives NON-WOVEN FLAP BRUSH WHEEL

## A Gentle Abrasive Solution That Shines to The Task

Sometimes just plain sanding down and buffing with conventional polish materials is not enough to bring out a shining surface. You need a more industrial approach to really dig into the surface and bring out the shine. Our Non-Woven Flap Brush Wheels are made with tightly packed nylon abrasive surfaces to bring out the shine and not damage the surface.

SK Abrasives Non-Woven Flap Brush Wheels are available in a choice of 4 abrasive surfaces; Coarse (CRS), Medium (Med), Fine (Fin) and Very Fine (VFN)

### Recommended Usage & Application

Non-Woven Flap Brush Wheels are generally used as a polishing tool and is suitable for most flat surfaces.

## SK Abrasives NON-WOVEN FLAP BRUSH WHEEL
